# **Bottlenecks and Challenges within the local and state systems that result in service barriers or failure to secure housing including risks and issues that will slow down or reduce housing stabilization**

Locating individuals initially and/or following up with individuals within a timely fashion for housing opportunity or housing program including gathering identification documents

Identification of resources within AHD that can be leveraged to support the facilitated exit strategy - i.e. HUD funding, alcohol tax and AHD operating dollars

Coordination/communication across needed entities at local and state level for specialized behavioral health and medical services: progress underway with AHD and SOA

- Resource/ capacity constraints with behavioral health, care coordination, etc.
- Dissemination of tools/programs at a State and local level that will assist with housing
- Hospital discharges to shelter without additional services to meet client

**Bottlenecks & Challenges: April 2022**

## Bottlenecks & Challenges: April 2022

### Availability and accessibility of affordable rental units, assisted living home beds and supportive housing beds

- Vacancy rate for apartments accessible to individuals experiencing homelessness (units available in income range at limited vacancy rate)
- Ramp up of Landlord Housing Partnership efforts now that contracts are completed
- Units that allow pets
- Access to funds that permit leasing up quickly
- Rapidly updated list of landlords who are willing to rent to those in mass care
- ALH that will accept clients without an approved Medicaid waiver
- Application fees

### Continued statewide “referrals” to Anchorage shelter system

### Continuing to address Data Quality and Data Completeness in the Anchorage shelter system
